

The C.U. Ethics in Mathematics Society presents:

Dr. Maurice Chiodo

Ethics for the working mathematician

Seminar 2

THE ALLURE OF MATHEMATICS

What motivates us as mathematicians? Ours is one of the few professions where we enjoy our job so much that we'd probably do it for free. Our dedication and determination to solve mathematical problems is one of our greatest strengths, but can also be our undoing. Our ability for extreme focus is a double-edged sword; on the one hand it makes us excellent problem solvers, on the other hand it restricts our capacity to see the broader implications and consequences of our work.

Tuesday 24 October 2017

16:00-17:00

**Centre for Mathematical Sciences
MR3**

This talk is part of the C.U. Ethics in Mathematics Society (CUEiMS) series
